

PI South East Asia
PROFIBUS • PROFINET

Introduction

Organization

Applications and Solutions

Benefits

Members

From central automation systems...

- with a central PLC and
- sensors/actuators
- based on 4-20 mA or 0-10 V technology

... over distributed automation systems...

- with a PLC/IPC and
- distributed peripherals
- based on field bus technology

Changes in Automation Structures

Introduction

Organization

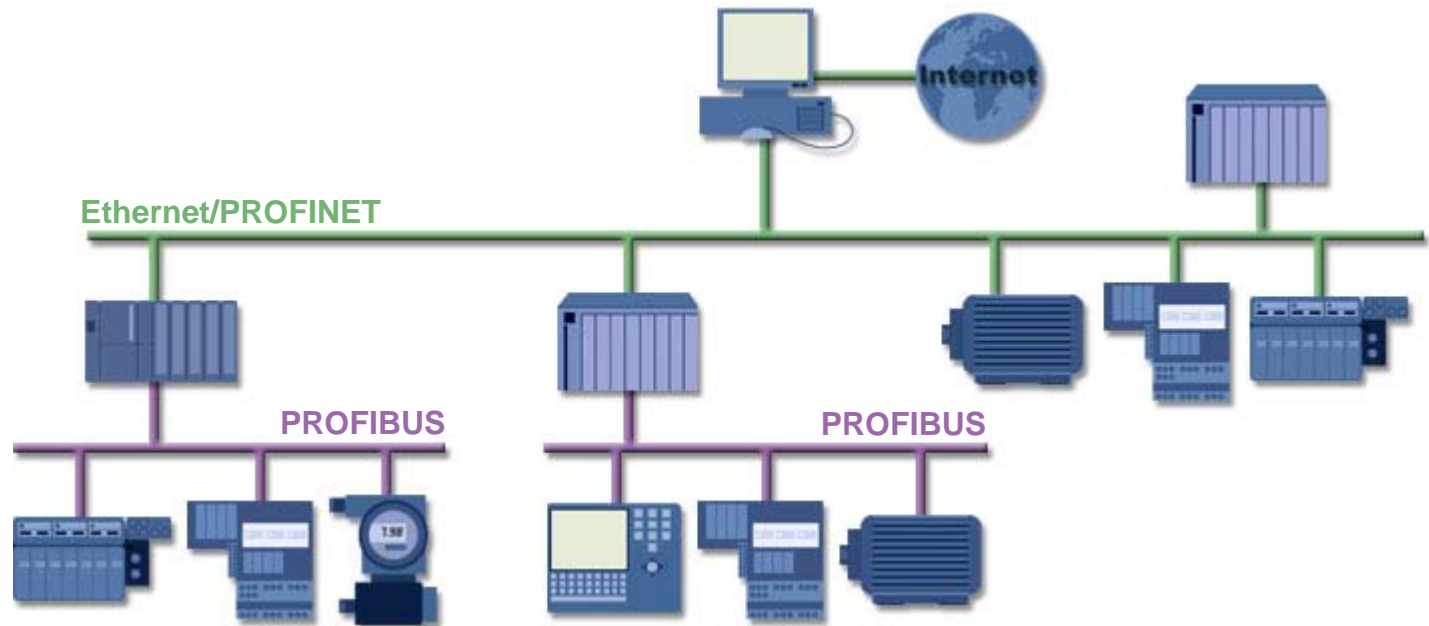

Applications and Solutions

Benefits

Members

... to automation technology with

- distributed intelligence (intelligent field devices)
- symbiotic interaction of field bus and Ethernet communication
- consistency right through to corporate management level and Internet

With integrated motion, safety and  applications

Members

PROFIBUS is the open
Fieldbus Standard for Automation
of PROFIBUS International.

PROFIBUS covers all requirements of all branches
of Automation Technology.

PROFIBUS ...

- Is a digital communication system optimized for all automation tasks
- Covers both fast time-critical applications and complex communication tasks, **not just for drives**, for all levels in automation
- Supports numerous Application Profiles

Introduction

Organization

Applications
and
Solutions

Benefits

Members

PROFINET is the open
Industrial Ethernet Standard for Automation
of PROFIBUS International.

PROFINET covers all requirements of all branches
of Automation Technology.

PROFINET ...

- Is Based on Industrial Ethernet
- Uses TCP/IP and IT Standards
- Is Automation in Real-Time
- Enables Seamless Integration of other Fieldbusses

PROFISAFE-Profile

Introduction

Organization

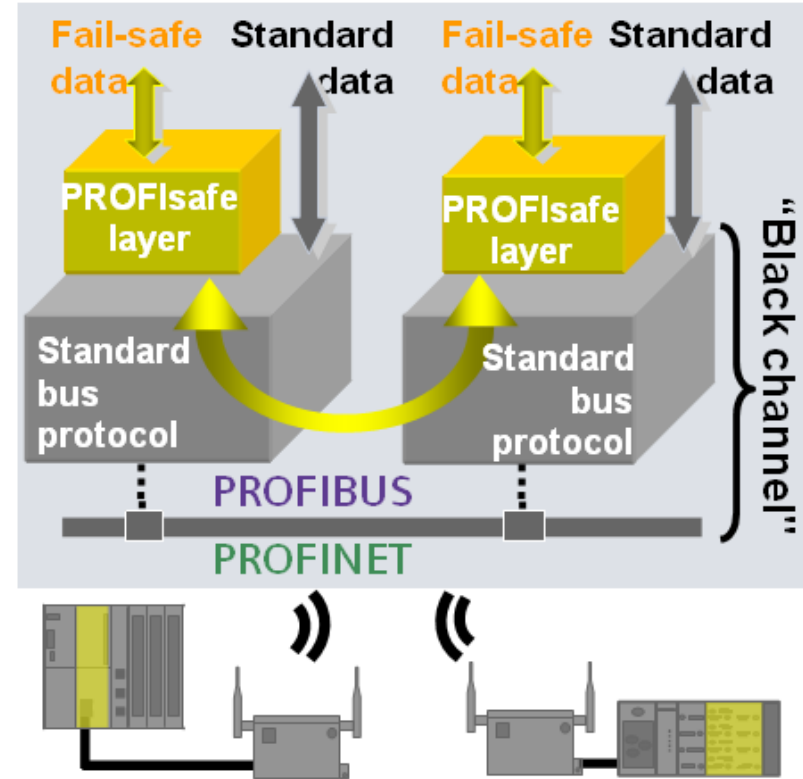

Applications and Solutions

Benefits

Members

- First standard of communication in accordance with safety standard IEC 61508
- PROFIsafe-Profile supports the safe communication for the open standard bus PROFIBUS and PROFINET

Approved by

PROFIsafe supports standard- and failsafe Communication by one medium

PROFIBUS & PROFINET International (PI)

25 Regional
Associations
(RPA)

36 PI Competence
Center (PICC)

10 PI Test
Laboratories (PITL)

More than 1,400 members world wide

The architecture is being devised by

- 12 work groups
- With 140 employees
- from 60 companies

PROFINET – from the world's largest fieldbus organization

**Over 30 Million installed PROFIBUS nodes and
over 2 Million PROFINET devices installed worldwide.**

Introduction

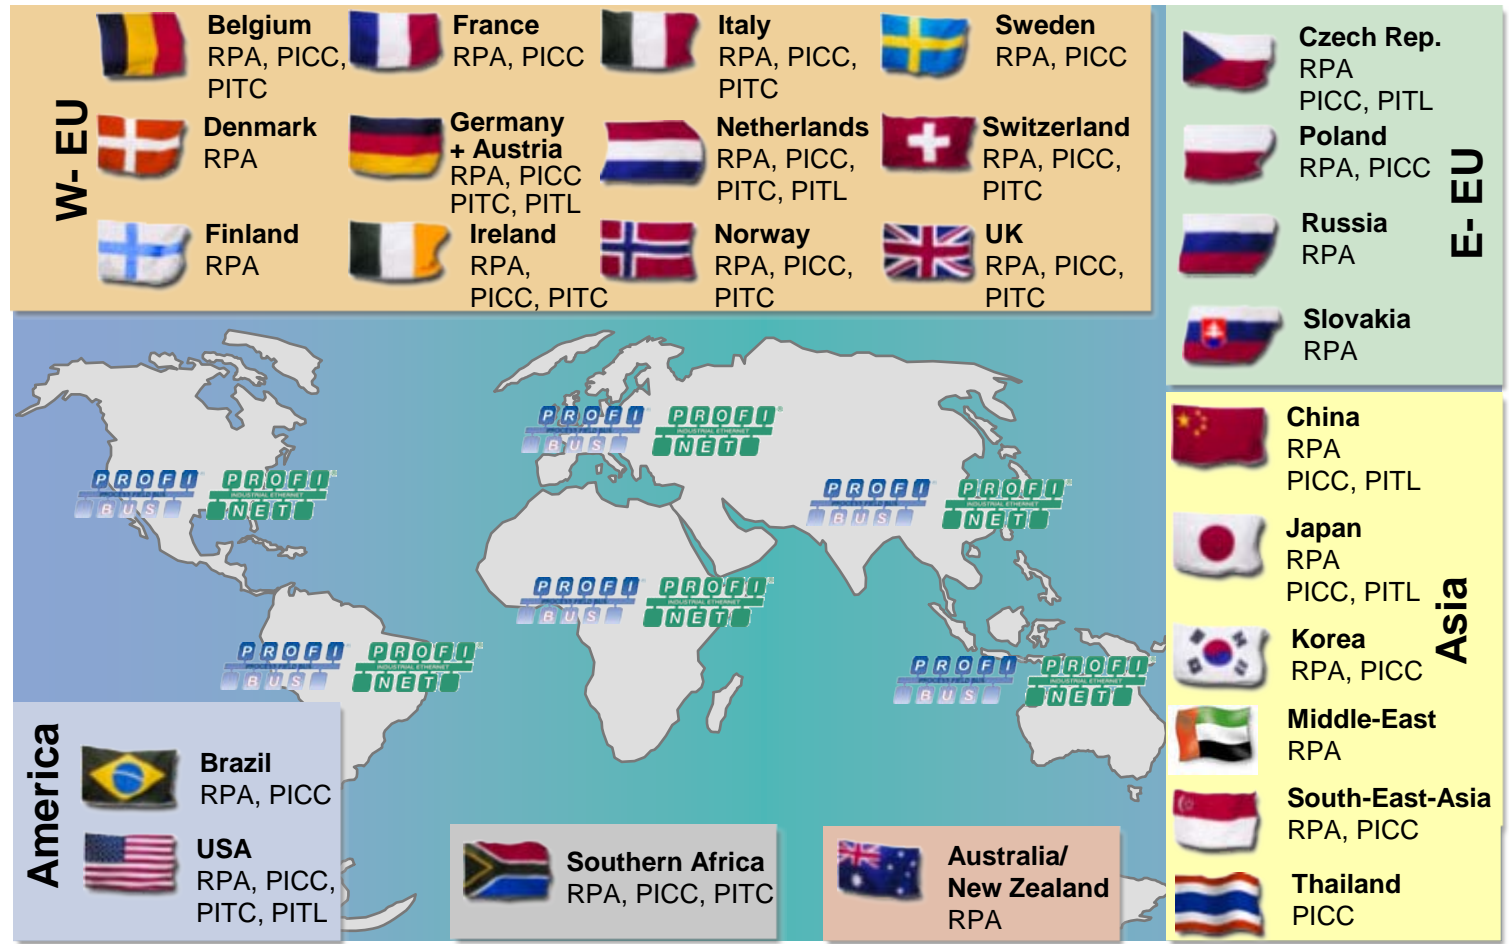

Organization

Applications and Solutions

Benefits

Members

- 27 Regional PI Organisations (RPA)
- 36 PI Competence Centers (PICC)
- 15 PI Training Centers (PITC)
- 10 PI Test Laboratories (PITL) for certification tests

Applications and Solutions

Introduction

Organization

Applications and Solutions

Benefits

Members

Factory automation

- Vehicle manufacture
- Bottling plants
- Warehousing systems
- Switchgear
- Hollow glass production

....et cetera

Process automation

- Chemical industry
- Petrochemical industry
- Paper and textile industry
- Foodstuffs
- Power stations
- Sewage plants

....et cetera

Drive technology

- Machine tools
- Packaging machines
- Pressing plants
- Paper production

....et cetera

Safety applications

- Vehicle assembly
- Machine tool building

....et cetera

More than 1 million PROFIBUS systems implemented
 with over 30 million nodes

PROFIBUS & PROFINET

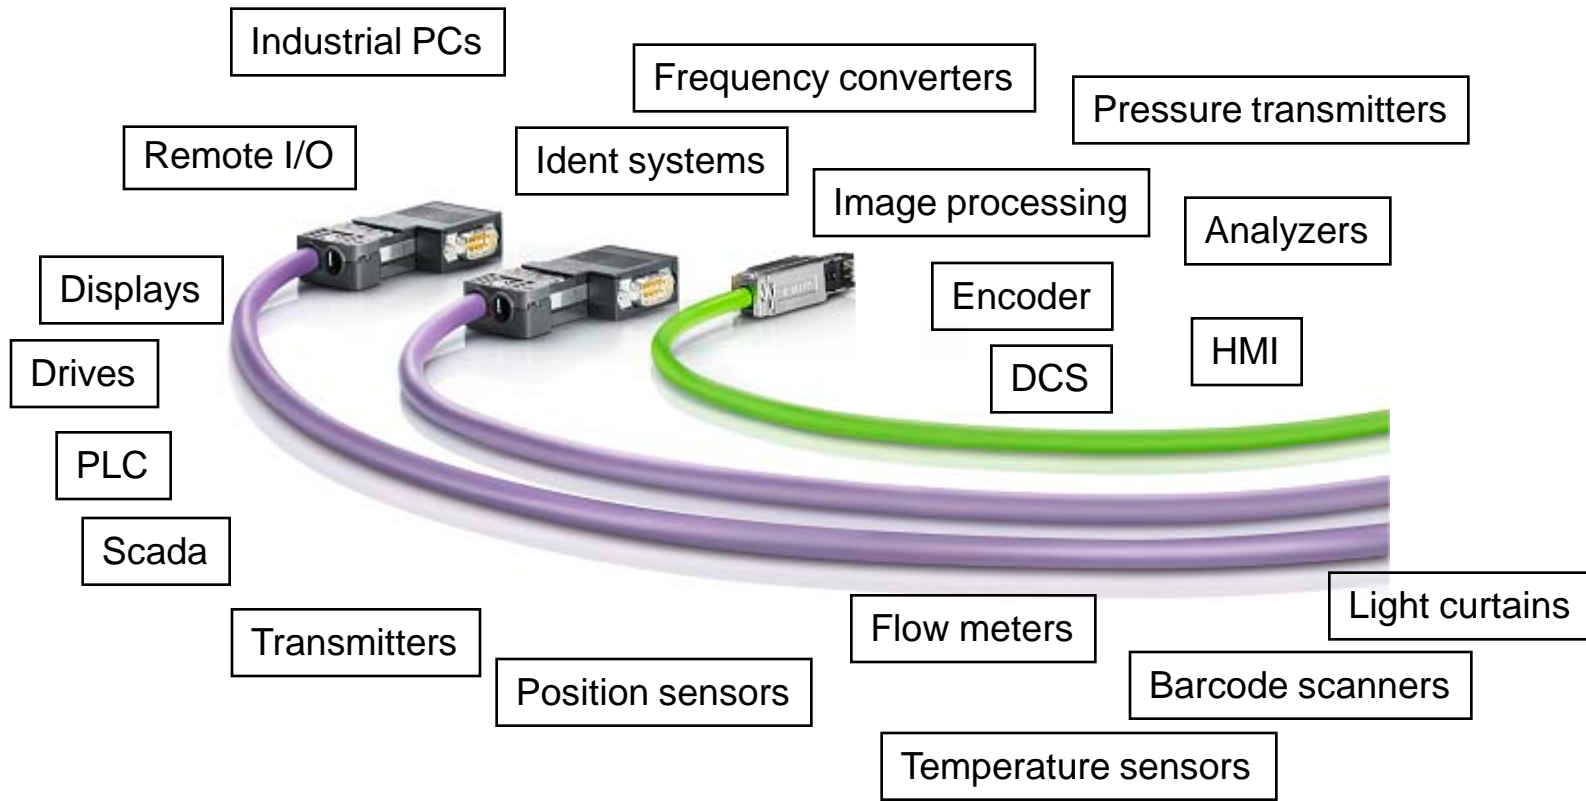

Introduction

Organization

Applications and Solutions

Benefits

Members

More than 2500 products available
from more than 200 manufacturers

User-friendly search functions

Continuous updates by member companies

PROFIBUS - Plant-Wide Implementation

A single consistent solution for all plant sections, in hybrid plants, too!

Benefits

Members

PROFIBUS provides investment protection

A communications protocol for all applications
Standardized in IEC 61158 / IEC 61784

Innovations together with users
Fully compatible with existing technology
Binding specifications

Tried and tested technology through over
30 million devices installed worldwide

**Benefits for
customer**

Production

Total Cost of Ownership

Faster Planning to Operation

Phases in the life cycle

Introduction

Organization

Applications and Solutions

Benefits

Members

Savings in the life cycle

- Reduction of time prior to start of production
- Reduction of costs
- Reduction of failure risk

Savings with Planning (Design and Aquisition)

Introduction

Organization

Applications and Solutions

Benefits

Members

Simple topology

- Fewer devices, cables and cabinets
- Less documentation
- Reduced space requirements

Intelligent field devices

...onal components

Central, uniform management

...e tools

Wide range of appli

...roduction and process tasks

- For safety and motion tasks

Wide variety of products
Worldwide support

- Broad selection of devices
- Vendor independence
- Worldwide and cost-effective support

Shortened design phase means lower costs
 -
Fewer components mean lower costs

Savings on Engineering

Introduction

Organization

Applications and Solutions

Benefits

Members

Simple topology

- Faster engineering,
- Fewer programming requirements,
- simple structures and documentation

Intelligent field devices

instead of programming

Central and unit management

environment

Wide range of applications

- Engineering know how for production and process tasks
- and safety and motion tasks

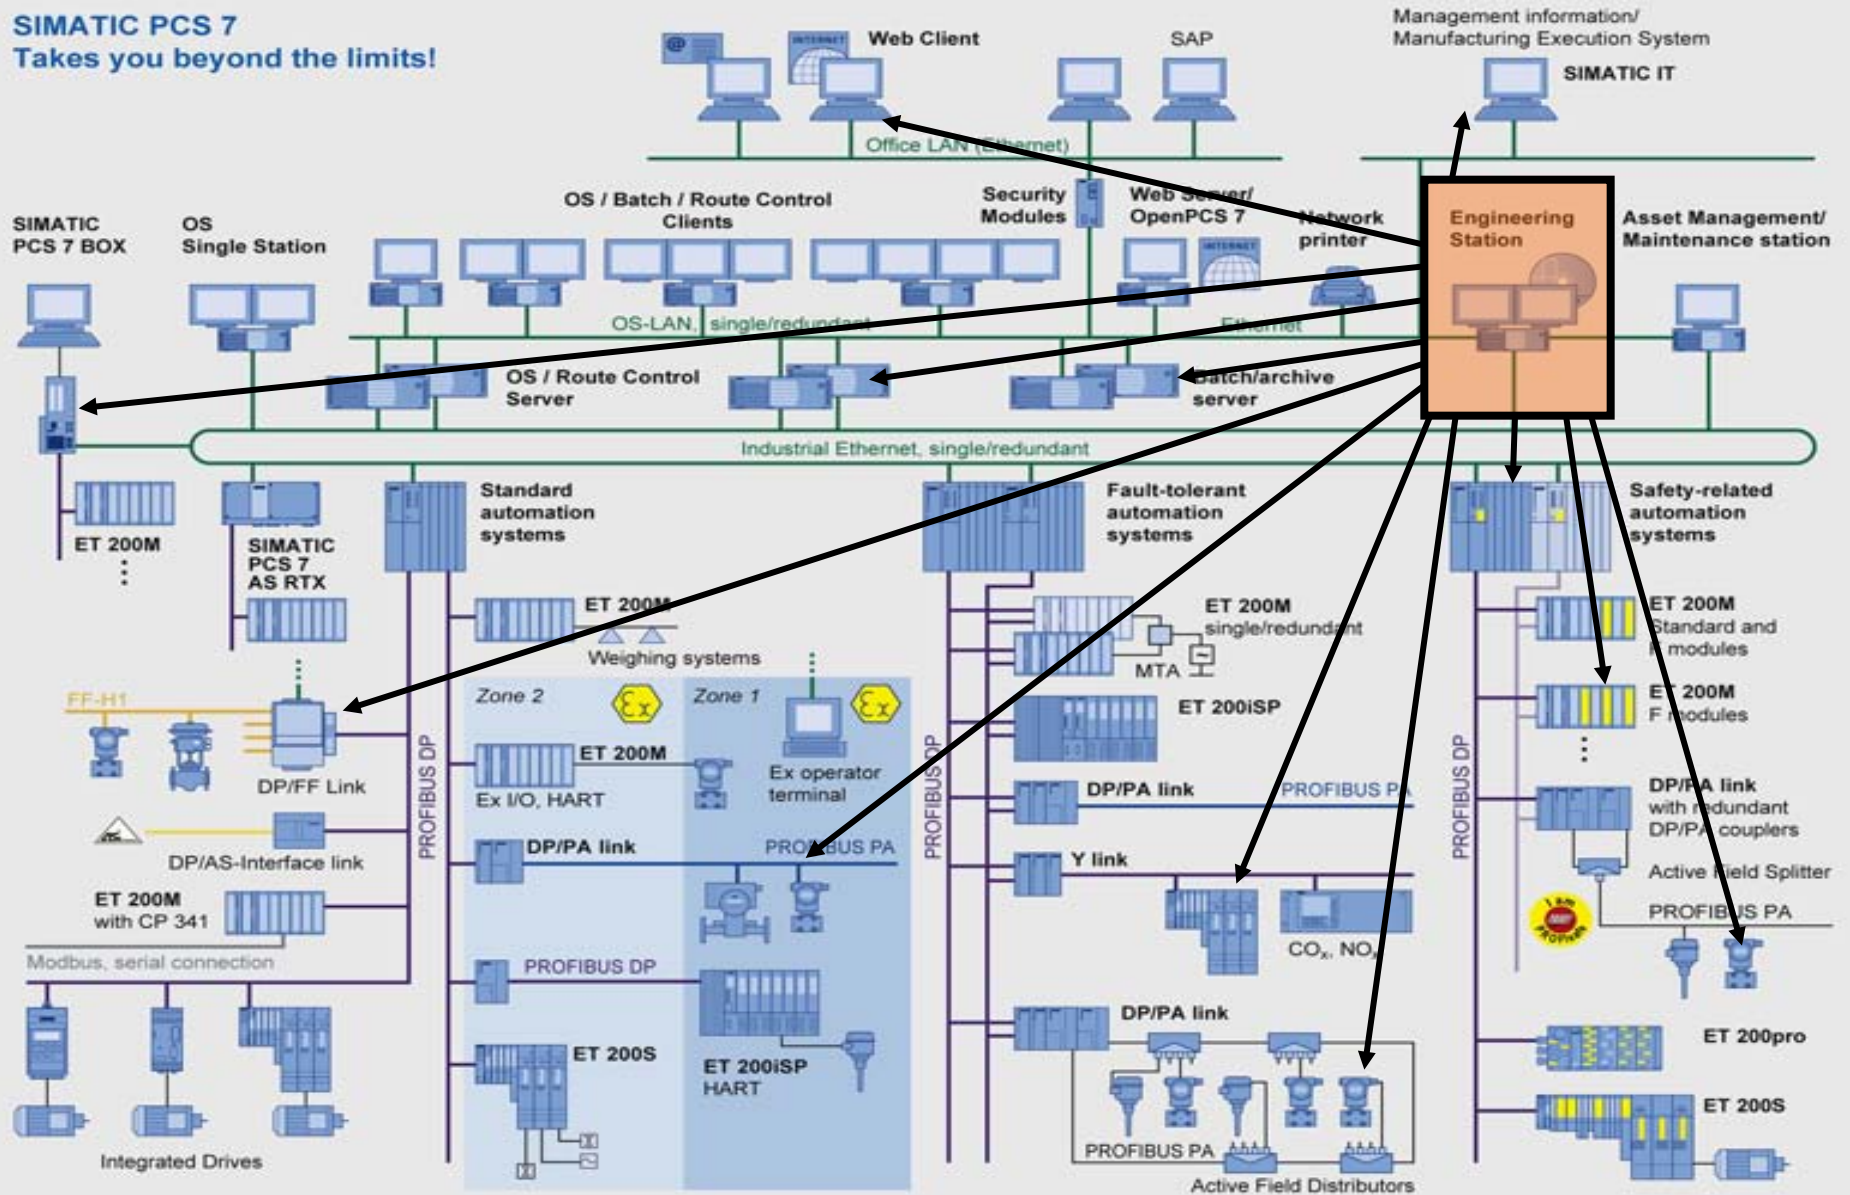

Wide variety of products
Worldwide support

- Broad selection of devices
- Vendor independence
- Worldwide and cost-effective support

Faster engineering means lower costs
 -
Fewer components mean fewer chances of error during engineering

Central Engineering

SIMATIC PCS 7
Takes you beyond the limits!

Savings on Assembly

Introduction

Organization

Applications and Solutions

Benefits

Members

Simple topology

- Reduced outlay for assembly and commissioning; smaller footprint
- Fewer errors during wiring

Intelligent field devices

Diagnostic and simulation options

Central and uniform device management

Engineering possible from any location

Wide range of applications

Machine and process tasks
 Safety and motion tasks

**Wide variety of products
 Worldwide support**

- Broad selection of devices
- Vendor independence
- Worldwide and cost-effective support

Less cable to lay and install means lower costs

Pre-start-up and a single engineering environment means shorter start up

Savings on Production (Operation and Maintenance)

Introduction

Organization

Applications and Solutions

Benefits

Members

Simple topology

- Simple maintenance due to clear arrangement
- Hot-swapping of devices

Intelligent field devices

- Improved plant availability (e.g. requirements indication)
- Optimization (higher accuracy)
- Improved asset management

Central and uniform management

Operation and maintenance
 and documentation

Wide range of applications

Uniformity of overall

Wide variety of products
 Worldwide support

- Wide availability of training, service and know how

Field devices report their own maintenance requirements
This enables maintenance dependent upon use
 -
Higher accuracy improves efficiency of the plant

A Strong Community

Introduction

Organization

Applications
and
Solutions

Benefits

Members

- PI is a non profit association and a the community of
 - End Users
 - System Integrators
 - Vendors
 - Research Institutes
- which are interested in PROFIBUS and PROFINET communication technologies.
- Membership in PI offers you a large choice of benefits

Member Benefits

Introduction

Organization

Applications
and
Solutions

Benefits

Members

- Receive actual information about all PROFIBUS/PROFINET news
- All members are permitted to enter descriptions of their PROFIBUS and PROFINET products and services in the Online Product Guide, free of charge.
- All members may publish the GSD/GSDML-Files for their Devices in the Online Product Guide for free.
- Hotlinks from Members List: All members are entitled to install a hotlink to their Homepage from the list of members page.
- Free Publication of Product Information and Application Stories in PROFINEWS, which is the official worldwide newsletter of PI.

Benefits

Members

- **Free Access to Profiles and Guidelines via Download:**
With your member password, you can access and download PROFIBUS and PROFINET literature for free.
- **Discount on Training courses:**
Members of PI profit from discounts on PROFIBUS and PROFINET certified training fees from many PI Training centers.
- **Use of the PROFIBUS and PROFINET logo:**
The PROFIBUS and PROFINET logos are registered trademarks. Members of PI are entitled to use the logo in all their written or electronic publications and promotional material. Request a copy from your RPA.

Thank you for your attention!
