Aitor Zabalo Rios | Mondragon Assembly

Mondragon Assembly at a glance

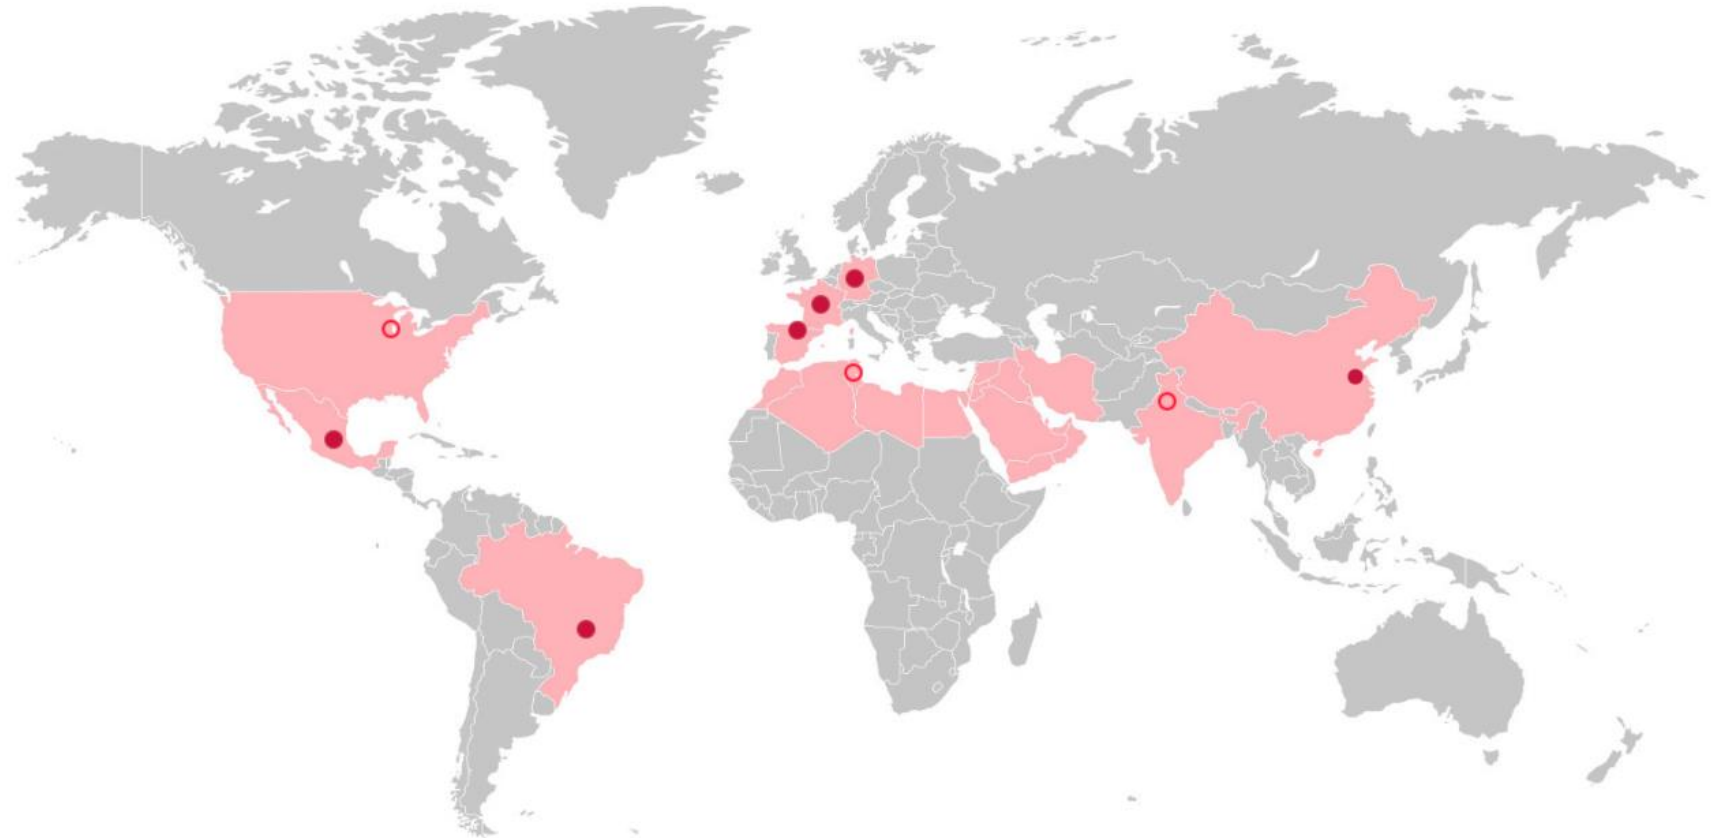

01 Who are we

*2023 Data

MONDRAGON ASSEMBLY is a global benchmark in the automated assembly and equipment sector

We operate within three business areas: Automation, Solar and Energy Storage. Our core activities globally include the development of turnkey lines and contract manufacturing.

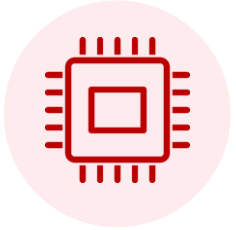

Robust solutions, demand standardized tools

Highly diverse industries

**Automotive
industry**

Electronics

**Household
goods**

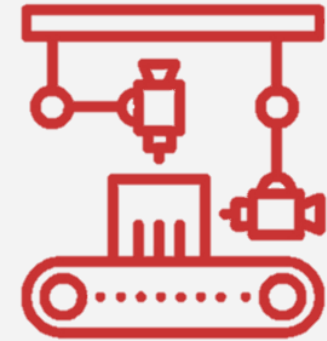

**Medical &
cosmetics**

Quality

Customization

Efficiency

Tailored
Assembly Solutions

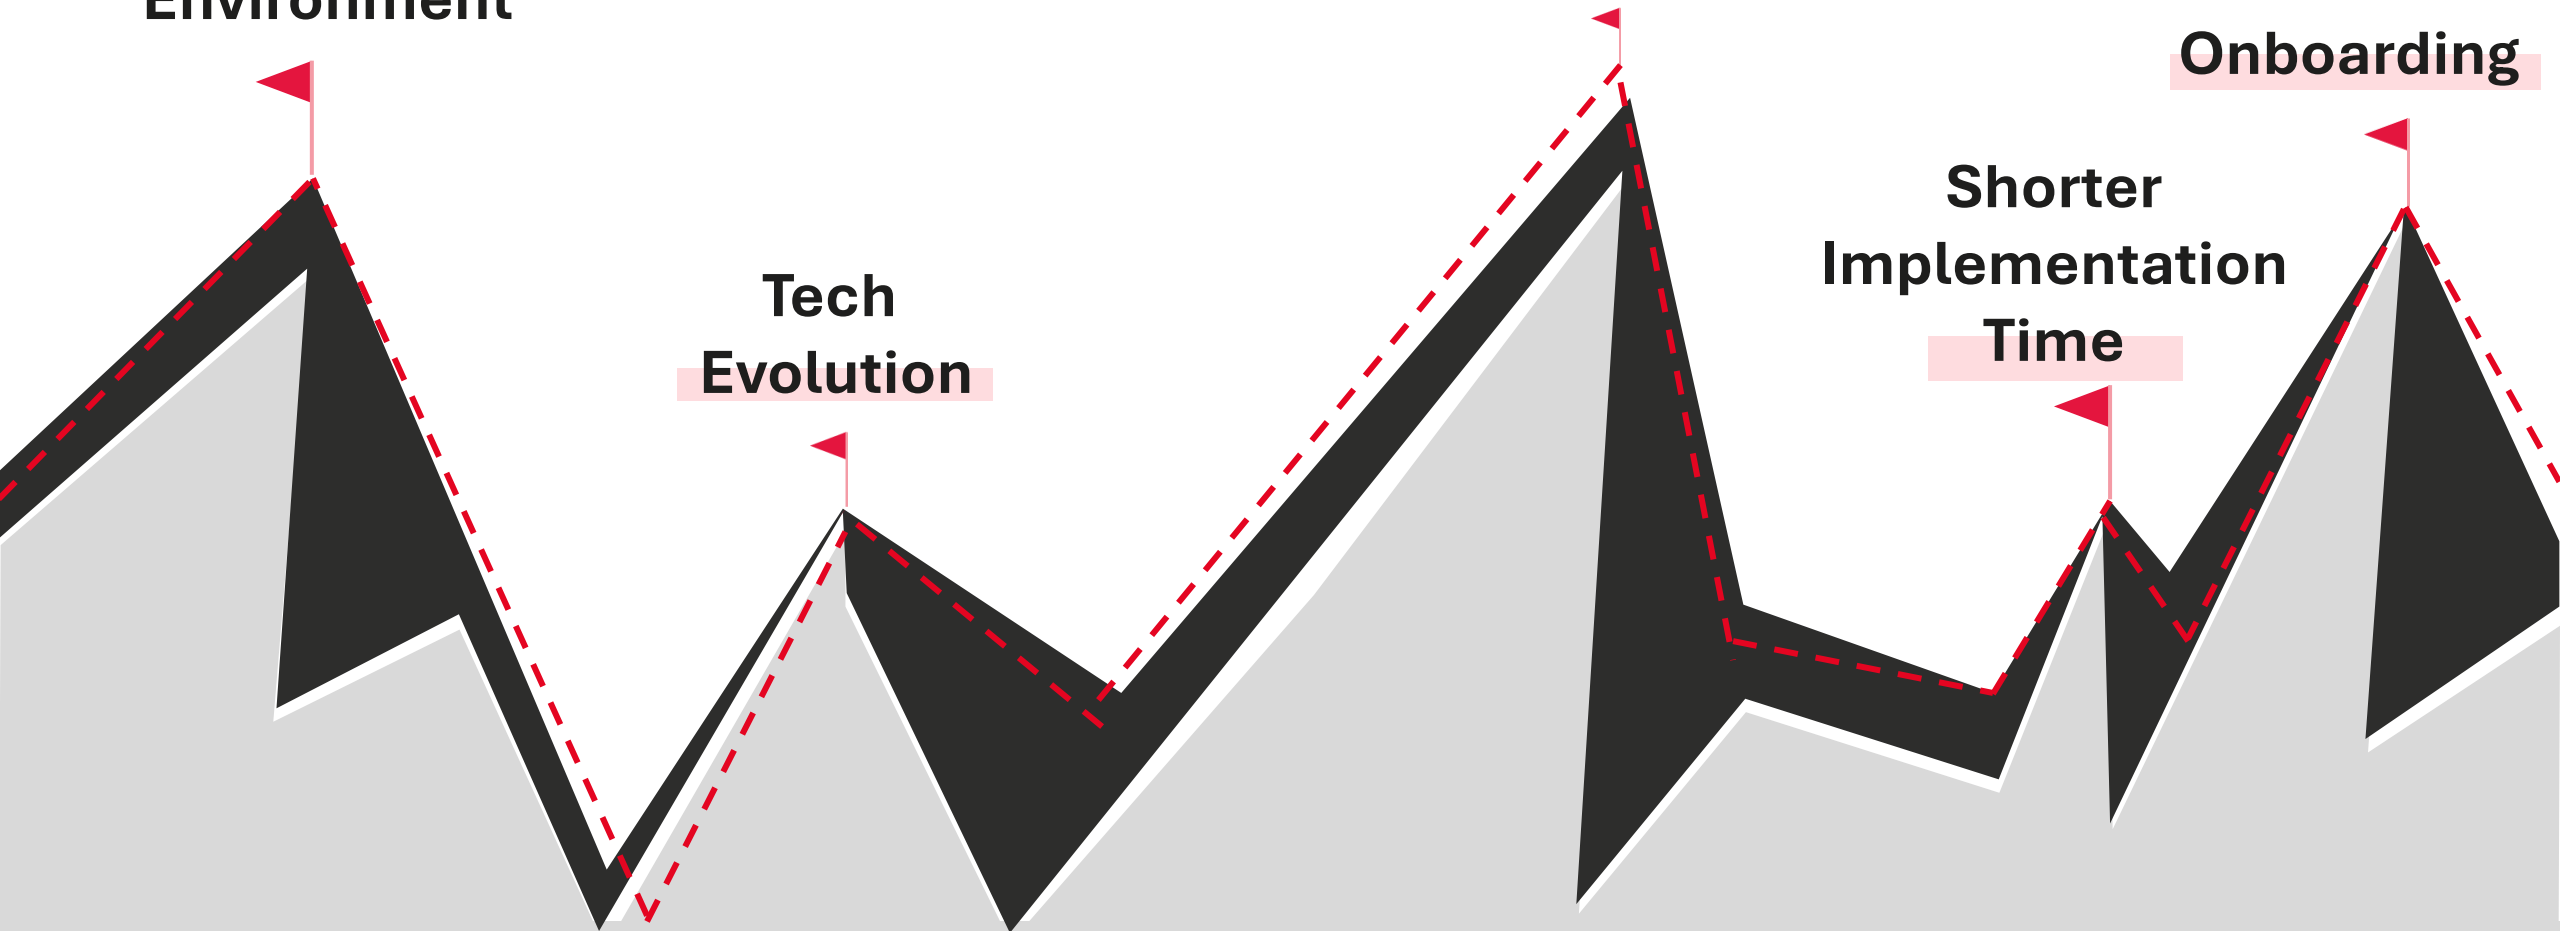

Multiplatform Environment

Know-how updated

Member Onboarding

Tech Evolution

Shorter Implementation Time

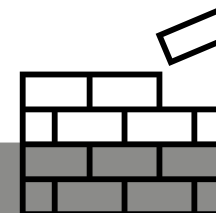

Our approach

Define root concepts, **build** synergy frameworks, **standardize** the core

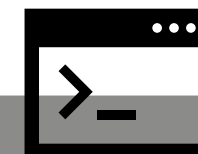

Define

Build

Code

Faster and more **efficient** implementations
More **robust** and easier-to-maintain solutions
Reduce repetitive tasks and **increase added value**

There's still **much to do**, so what
about **the future?**

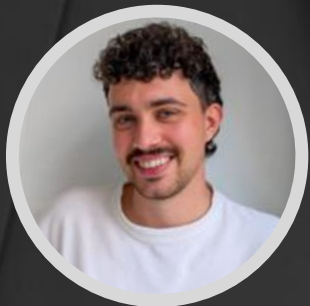

Our commitment

- Prioritise **technologies** that enable smart, **interoperable** ecosystems
- **Search convergence** between technologies
- Keep working on **robust, flexible and scalable** solutions

Our ask

- Empower **two-way flow of information**
- Be **open**, create **new opportunities**
- Make tools **smart**, so we **create**—not repeat
