your ticket to all buses

LOST IN COMMUNICATION?

ETHERNET TCP/IP

PROFINET CC-Link

RS422 ETHERNET POWERLINK

CANopen

PROFIBUS Modbus

DeviceNet

EtherCAT

EtherNet/IP 3964R

BACnet

MPI

RS232

MAKE **UNIGATE®** YOUR UNIVERSAL TRANSLATOR.

PROFINET	CANopen	PROFIBUS	EtherCAT
EtherNet/IP	Modbus	ETHERNET TCP/IP	ETHERNET POWERLINK
LONWorks	DeviceNet	MPI	MODBUS TCP

DEUTSCHMANN PROVIDES THE TICKET TO ALL BUSES

It is not always easy to keep up with the wide variety of fieldbuses and Industrial Ethernet standards in automation technology. Connecting communication systems can be a challenge - our UNIGATE® product series is up to the task.

› **Protocol Converter**

› **Embedded Solutions**

› **Gateways**

WHAT SETS US APART:

PROTOCOL DEVELOPER

The UNIGATE® series can be easily customized to your product using the Deutschmann Script Language and the Protocol Developer tool. This unique feature makes it possible to adapt to almost any situation, providing the ultimate flexibility in connecting your device to any network.

WINGATE

The configuration tool WINGATE with an easy-to-use interface ensures a comfortable configuration.

YOUR DEMAND – OUR SOLUTION:

| Water waste management | Display Systems | Drive Technology | Automotive | Energy | Factory Automation | Building Automation | Air Conditioning Systems | Shipping Industry | Traffic & Transportation Technology |
